

AX545

Spartan-6 FPGA Development Board

Key Features

- FPGA: Xilinx Spartan-6 XC6SLX45-2CSG324
- 256MB DDR3, 16bit, 666Mbps
- 16MB QSPI Flash, EEPROM 24LC04
- VGA Interface, 16bit, Display 65536 Colors
- Gigabit Ethernet Interface x1
- Camera Interface, Connect to Monocular Camera Module
- Integrated 40-pin Expansion Port, USB, Uart and Other Common Interfaces
- Provide Documents in PDF (Schematic, PCB, Chip Datasheet and User Manual)
Provide Verilog HDL Demos and Supporting Tutorials, Easier to Get Started With

AX309

Spartan-6 FPGA Entry-level Development Platform

Key Features

- FPGA: Xilinx Spartan-6 XC6SLX9-2FTG256C
- 32MB SDRAM, 16bit; 2MB SPI Flash
- 50M Active Crystal, EEPROM 24LC04
- VGA Interface, 16bit, Display 65536 Colors
- 40-pin Expansion Port x2, Digital Tube
- CMOS Camera Interface, Connect to Monocular Camera Module
- Integrated USB UART, JTAG, TF Card Slot and Other Common Interface
- Provide Documents in PDF (Schematic, PCB, Chip Datasheet and User Manual)
Provide Verilog HDL Demos and Supporting Tutorials, Easier to Get Started With
